

M POWER

Solar Photovoltaic (PV) Program Residential Energy Efficiency Disclosure Agreement

MID Customer Information (must be same as name of record on MID Account)	
Customer Name (As appears on MID Bill)	MID Account Number
Installation Address	City, State

By installing all cost effective energy efficiency measures before installing a solar energy system, the overall system size and cost can be reduced.

Please review and complete the following information and sign below.
Submit with a copy of the energy audit with the MID Solar Photovoltaic Reservation Request /Application Form.

A PV system is to be installed and I am applying for an MID PV incentive (rebate) for the address listed above.

I have reviewed the billing history (minimum 12 months) for the address listed above. Available from MID upon request.

I used the following services or tools to learn about energy efficiency measures that could be installed at my home:

- MID's on-line energy check-up. Website: <http://www.mid.org/services/save/energydepot.html>
- Energy Star® Website: <http://www.energystar.gov>
- Flex Your Power Website: <http://www.fypower.org>
- American Council for an Energy Efficient Economy Website: <http://www.aceee.org>
- Go Solar California Website: <http://www.gosolarcalifornia.ca.gov>
- Other(please detail):

I had an energy audit completed on the address listed above identifying cost effective energy efficiency improvements, and estimated energy savings. Call (209) 526-7339 or (800) 304-5373 for an appointment.

I have been informed of rebates and other incentives to help offset the costs of installing energy efficiency measures from MID. Please visit your MID's rebate and savings web site for more information. Website: <http://www.mid.org/rebates>

I installed the following measures at the address listed above:

I intend to install the following measures at the address listed above by _____(date):
