Notes:

Modesto Irrigation District's MPower Business Rebate Program offers commercial, industrial and agricultural customers rebates for the purchase and installation of qualifying energy efficient products in existing facilities.

HOW TO APPLY

1. Complete, sign and submit an MPower Business Rebate application with any required supporting documents to MID.
2. An MID representative will contact the customer/applicant and perform a site pre-inspection if necessary.
3. An MID representative will provide written rebate pre-approval to install the equipment.
4. Complete the project and provide final invoices to the MID representative.
5. MID will conduct an on-site inspection to approve rebate for payment.
6. Submit MPower Business Rebate application package to:
MID (Attn: Energy Services)
PO Box 4060
Modesto, CA 95352

Terms and Conditions

Purchase

- Purchase (not lease) and install qualifying product(s) between November 1, 2018 and December 15, 2019. These dates may change if funds are depleted sooner. Qualifying products must be installed before submitting your application. The application and supporting materials should be submitted within 90 days of purchase date. All applications must be postmarked by December 15, 2019 to be considered eligible. Exception: Applications for rebate items that are discontinued mid-year must be received by rebate item end date (see Rebate Catalog for details).
- For all qualifying measures, the product purchase date is determined by proof of purchase documents, such as the customer acceptance date of a contract for services, a detailed itemized and dated paid invoice, contract or the printed date on a store cash register receipt. Proof of purchase document(s) must include price per product and detailed payment terms or "type of transaction" (i.e., cash, credit, etc.). Leases and/or performance based projects and previously owned equipment do not qualify for MID rebates.
- Funds received from sources other than MID rebate programs that lower the cost of the project may reduce the incentive amount applicants receive from MID. These sources include all third-party energy efficiency programs offering direct funding, financing or rebates (other than tax credits). The funded amount(s) will be deducted from the actual and documented Project Cost when calculating eligible project cost. Applicants are required to inform MID of any other incentives for which they have applied and/or may receive.

Inspection

Pre-Inspection may be required. See each measure for details.

- Customer must disclose to MID, at the time of the rebate pre-inspection (if required for rebate item), exactly what energy efficiency modifications are planned and where on the premises they will be installed. Projects that

significantly differ in application, scope of install location from MID's information may not be eligible for rebate.

- All products are subject to a post-installation inspection by MID.
- MID reserves the right to request manufacturer specifications and/or data for any product.

Payment

- Rebates anticipated to exceed \$3,000 and all exceptions require written pre-authorization of the MID Energy Services Department.
- Rebate payments are limited to 100% of eligible costs of qualifying products (excludes installation, taxes, shipping, handling and warranty costs and minus any funds received from other sources).
- Customers – Rebates of \$600 or less are issued as credits on the business electric account. Rebates greater than \$600 are issued by check. IRS W-9 form is required for rebates issued by check. IRS W-9 form must be current version. MID is not responsible for any taxes that may be imposed as a result of these rebates.
- Rebates will only be issued to customers in good financial standing with MID (subject to MID approval).
- Rebates take from six to eight weeks to process.

General

- Rebates are provided for qualifying product(s) installed in a business location receiving electricity from MID to customers in good financial standing with MID (subject to MID approval).
- All installations must be installed in accordance with all applicable local, state and national codes and ordinances.
- These rebates do not apply to new construction, additions to existing facilities, or reconstruction of existing facilities (i.e.: gut and rehab, change of occupancy) that must comply with CA Title 24 Energy Standards. See MID web site for information about rebates for non-residential new construction.
- Applications will not be processed until all

proper documentation is received. Upon MID notification, if required documentation is not received by MID within 30 days, the application will be voided. All documentation must be legible.

- Products can only receive one MPower Business rebate from MID during its useful life period(see Express Rebate Catalog). Reapplication for rebate will not be accepted during this period.
- MID is not responsible for any taxes that may be imposed as a result of these rebates.
- MID makes no representation or warranty and assumes no liability with respect to quality, safety, performance or other aspect of design, system or appliance installed pursuant to this agreement and expressly disclaims any such representation, warranty or liability.
- There are periodic changes to CA Title 24 Efficiency Standards. It is the responsibility of the contractor and customer to comply with all current standards through their local city, county or other compliance authority. MID rebates are only available for items that are not required by or in excess of CA Title 24 requirements when applicable. MID reserves the right to request all CA Title 24 compliance documentation before approving any rebates incentive.
- Rebates issued at the sole discretion of MID.
- MID reserves the right, without prior notice, to periodically review and make changes to rebate Qualification standards and to determine final program eligibility.

Annual Application Cap

- The annual application cap for this program is determined per account, by the applicable MID electric rate schedule:
 - \$10,000 (GS-1, FL, SL)
 - \$20,000 (P-3, GS-2 up to 499 kW)
 - \$30,000 (GS-2 500-1000 kW, GS-TOU)
 - \$50,000 (P-4, GS-3)
 - \$75,000 (IC-25)
- Applications for rebates above these amounts will not be accepted unless preauthorized by MID.
