

Applicability

This is an optional, pilot, Time-of-Use (TOU) Rate applicable to individual family accommodations devoted primarily to residential customers and who have a currently registered Motor Vehicle, as defined by the California Motor Vehicle Code, which is: 1) a plug-in battery electric vehicle (PBEV) or plug-in hybrid electric vehicle (PHEV) recharged via a recharging outlet at the customer’s premises.

Character of Service

Alternating current at a frequency of approximately 60 Hertz: 120 volts, 120/208 volts or 120/240 volts, single phase, as specified by the District. Three phase service may be specified and supplied by the District at its option for residential heating and/or air conditioning loads.

Monthly Charges

The total amount of a customer’s bill, excluding applicable local and state taxes and surcharges, will be the sum of the charges listed below and any adjustments for Special Provisions, effective on the date of meter reading for each account.

Winter (October – April)	Summer (May – September)
Fixed Monthly\$30.00	Fixed Monthly\$30.00
Electric Usage (per kWh):	Electric Usage (per kWh):
On Peak\$0.1775	On Peak\$0.2475
Partial Peak\$0.1135	Partial Peak\$0.1600
Off Peak\$0.1135	Off Peak\$0.1150

Territory Served

The entire area within the Modesto Irrigation District electric service boundary or any other area served by Modesto Irrigation District pursuant to the laws of the State of California and the District’s Electric Service Rules.

Time Periods

Time periods are defined as follows:

- Winter: (Service from October 1 through April 30)
 On Peak: 5:00 p.m. to 8:00 p.m. Monday through Friday, excluding holidays.
 Partial Peak: 1:00 p.m. to 5:00 p.m. and 8:00 PM to 11:00 PM Monday through Friday, excluding holidays.
 Off Peak All other hours
- Summer: (Service from May 1 through September 30)
 On Peak: 5:00 p.m. to 8:00 p.m. Monday through Friday, excluding holidays.
 Partial Peak: 1:00 p.m. to 5:00 p.m. and 8:00 PM to 11:00 PM Monday through Friday, excluding holidays.
 Off Peak All other hours

Holidays are: New Year’s Day, President’s Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day, and Christmas Day.

Special Provisions

1. Availability

Service under this Rate Schedule is available the first of the month following customer’s selection. Once this Rate Schedule is selected, customers subsequently requesting a transfer from the Optional Time-of-Use Rate to the Standard Rate may not return to the Optional Time-of-Use Rate for a 12-month period. Cancellations become effective at the end of the billing cycle in which notice for cancellation is received.

2. Data Loss

In the event of data loss where the District is unable to determine in which time period the kWh were consumed, the kWh will be placed in the Off-Peak period.

3. Initial Read and Final Read

Service Connects and Disconnects will use the previous day's midnight reading as the start/stop read.

4. Air Conditioning Controlled Load Service (S.T.E.P.)¹

Service under this provision is provided to customers who have District-controlled electric central refrigerative air conditioning which, in the opinion of the District, is suitable for controlled service.

4.1 Written Consent

Service under this provision shall be provided only upon the written consent of the customer and the owner of the air conditioning equipment (or their authorized agents). Written consent to stop service under this Provision shall be obtained from new customers and owners within thirty (30) days after such service is established at locations where control equipment is in place.

4.2 Control Period

Air conditioning cycling control will be accomplished between the hours of 8:30 a.m. and 10:30 p.m. by interruption of controlled air conditioners for a period not to average more than 10 minutes nor exceed 12 minutes each half-hour. Air conditioners will not be interrupted on Sundays except as noted in Special Provision 4.7.

4.3 Rate Discount

The following discount will commence with the first billing period reflecting June consumption, and the following three consecutive billing periods. If electric service is terminated, the then effective S.T.E.P. credit will be issued on a prorated basis.

	Monthly Discount
June 1 to September 30:	(Dollars per Controlled Load per Month)
Central Air Conditioning Cycling.....	\$ 5.00

4.4 Discount Billing Period

The control discount for central air conditioning is in effect for four (4) consecutive summer billing periods beginning with the June billing period.

4.5 Suitable Equipment

Controlled loads will be limited to permanently installed electric central refrigerative air conditioning equipment served from a branch circuit(s) exclusively devoted to such loads. Air conditioning equipment must have a compatible low voltage control circuit, control energy source, and accessible control equipment mounting location as determined by the District.

4.6 Multiple Central Air Conditioning Units

Electric central refrigerative air conditioning systems equipped with multiple compressor units require the installation of District control equipment on all compressors. Multiple discounts apply to such installations.

4.7 Emergency Control

All controllable loads shall be subject to curtailment when, in the District's sole judgment, its generation and purchase capacity or energy resources, transmission capacity, or any combination of these is needed to meet the demands of its other customers and to prevent an otherwise avoidable outage. Emergency control under these circumstances may exceed the restrictions of Special Provision 4.2.

4.8 Installation, Maintenance and Removal

Control mechanisms and associated equipment will be installed, tested, and maintained at the direction of the District at locations selected by the District and at no expense to the customer. Upon termination of this Schedule with respect to any customer, all wiring will be returned to normal operating conditions at the District's expense.

5. Rules and Regulations

Service under this Schedule is subject to the District's Rules and Regulations for Electric Service as they may be amended from time to time.

6. Experimental rate

The General Manager has, at their sole discretion, the right to suspend, modify, restrict and/or close this experimental rate schedule at any time.

¹ S.T.E.P. service under this Schedule is re-opened for new sign-ups effective January 1, 2001, and will remain open subject to the availability of load control equipment in the District's inventory. The District may terminate acceptance of new sign-ups without further notice if it determines that its inventory of load control equipment is or will be fully utilized.
